

CIS381 – Computer Ethics

Project Instructions:

- This project is worth 15% of your grade.
- The project will be in pairs.
- The research paper is graded out of 10 marks and the presentation is graded individually out of 5 marks.
- Write your section number and the name of the first and second team members on the provided Excel Sheet.
- The list of topics is on the provided Excel sheet. First come, first serve.
- The research paper needs to be approximately 2000 words (4-5 pages).
- Any detected use of AI will get both team members a zero.
- You should be able to answer any questions regarding your report.
- Provide references for all your research (Use IEEE style).
- The deadline for the report submission is Sunday 24th of November.
- The presentations will be during the last week of November.
